PHILOSOPHY

No philosophy is worth its salt if it cannot be put into action.

At Concorde our philosophy has emerged from an integration of basic value systems we have adhered to and the expectations of our customers.

If we cannot build trust, how can we build a home?

On the foundation of trust we build quality. Once our customers realize that they can trust us, we try to exceed their expectations. We put quality into even things that our customer may not always be able to see today, but will realize it 20 years from now.

At Concorde we believe, every home is for ever.

When we see a customer, we see another 1000 customers.

We believe if one person is happy with our home. He will tell many others. So our focus is on the individual customer. If he is happy, we know we will have another. And so on.

Lastly, philosophy is not a page in a book. It is the sum total of the satisfaction experienced by all our customers. And this is what we mean by philosophy in action.

MISSION

To work towards becoming a fully integrated, professionally managed real estate organisation driving customer delight through all our offerings.

VISION

To emerge as the most preferred real estate organisation by creating sustainable values for all our stakeholders.
